I am committed to improving the planning and building process for better community outcomes that recognise architectural quality and streetscape amenity. I am concerned with population density and aim to focus attention on how infrastructure will cope with the State Government's plan for a significant increase to numbers in the surrounding district. Issues such as healthcare, asset maintenance, prevention of vandalism/graffiti and waste management are typical of the matters that will become a problem and need attention. Finally, I am determined to continue and improve the established programs for the care of flora and fauna throughout the Creeklands and surrounding areas.
